

Waxing Consent

Parlor Beauty & Wellness Collective | 6100 E Central Ave, Suite 215, Wichita, KS 67208 | (316) 201-6255

Consent for facial and body waxing services, including brow shaping.

What to Know

- ☐ Temporary redness and tenderness are normal, especially on first visits.
- ☐ Retinoids (Retin-A, Accutane), recent peels, and some medications thin the skin and can cause lifting; disclosure is essential.
- ☐ Sun, heat, and friction should be avoided immediately after waxing, as directed.
- ☐ Skin can occasionally lift or bruise even with correct technique.

I Confirm That

- ☐ I have disclosed retinoid use, recent peels or laser, and all relevant medications.
- ☐ I have no active infection, sunburn, or open skin in the area to be waxed.
- ☐ I will follow the aftercare I am given.

For your safety, tell us about all medications and supplements (including aspirin, ibuprofen, fish oil, antibiotics, and retinoids), skin conditions, allergies, recent or planned sun or tanning-bed exposure, self-tanner use, pregnancy or nursing, and recent cosmetic procedures. Undisclosed conditions and medications are the most common cause of poor outcomes.

Results vary with skin type, age, hormones, health, home care, and consistency with the treatment plan. Honest work is promised; specific outcomes are not guaranteed.

I have read this form, had the chance to ask questions, and I answered the health questions truthfully. I understand the information above and consent to the service described.
